EUROTREFF is one of Europe's leading festivals for children's and youth choirs, bringing together several hundred young singers for five days of music, exchange and inspiration. Participating choirs present their own repertoire in festival concerts and join the international ateliers, where singers work with renowned conductors to develop unique concert programmes, presented at the grand closing concert.

Under the motto "Joy", EUROTREFF 2027 celebrates the joy of singing, creative collaboration and intercultural friendship. Concerts, ateliers, encounters and shared musical experiences create an inspiring atmosphere in which young people from different countries come together through music.
